## **GEBON AND TEAM NAMED TOP 100 LEADERS IN SUPPLIER DIVERSITY**

[Pauline Gebon](#), Global Head of [Supplier Inclusion and Development](#), was recently named as one of [Women's Enterprise USA's](#) Top 100 Leaders in Supplier Diversity! The annual list includes innovative pathfinders who are leading the way for dynamic growth in supply chain diversity and inclusion.

Chosen from an initial list of hundreds and trimmed to a list of 363, the WEUSA team evaluated the remaining finalists who most strongly exemplify the characteristics of impactful promotion of supplier diversity to improve his or her company's business performance, identification of strategic opportunities to include diverse suppliers, creation of a positive environment for procurement employees and encouragement of innovative ideas among employees and suppliers. Because WEUSA recognizes that supplier diversity is a team effort, Pauline's team members are included this recognition as well; they are [Sue Darago](#) and [Cristen Cox](#).

Pauline and her team will be featured next month on the Volume I of Women's Enterprise USA [Minority Business News](#). Congratulation to all!
